imagePRESS 1135
Monochrome
Digital Production

Make the biggest imPRESSion in black and white

For the ultimate in high-end monochrome mid-volume production, turn to our flagship imagePRESS 1135. Offering unbeatable productivity, exceptional media handling and impressive print quality, it's the production engine to keep you well ahead of schedule.

Maximum Productivity

Full production speeds of up to 135 ppm are achieved across all media types and weights from 52g/m² up to 300g/m², whilst a maximum paper size of 19.2" x 13" is supported.

A sizeable 14,000 sheets paper supply from up to 3 POD decks with multiple sources is complemented by air-assisted feeding, for exceptional reliability and over 1.5 hours of uninterrupted production.

Class leading quality

1,200 dpi print resolution and an innovative twin sleeve print process combine to deliver outstandingly sharp text and images.

Precision printing

Accurate registration, which is actively adjusted during print runs, ensures consistency at high speeds for non-stop operation.

Highly innovative

New micro toner technology developed for this imagePRESS range delivers consistently high quality output across a wide range of media.

Exceptional finishing

Choose from a huge diversity of in-line finishing possibilities including perfect binding, multi-folding, saddle-stitching, punching, one or three edge trimming, and up to 2 high capacity stackers. Intelligent Registration technology ensures impressive results print after print.

Designed for high-end
mid-volume production
environments.
